Re: Initial clinical trial application for study WD-201 — A Phase 2, randomised, double-blind, placebo-controlled study of WonderDrug 50 mg tablets in adults with chronic migraine (WD-201)

Dear Sir or Madam,

SynthPharma AG submits an initial clinical trial application for study WD-201. The application contains the application form and the clinical trial protocol (version 1.0). The investigator's brochure and investigational medicinal product dossier are available on request in this example.

We request authorisation to conduct the trial at 12 sites, with first participant planned for January 2027.

Yours faithfully,

Dr. John Doe, Head of Regulatory Affairs, SynthPharma AG
