Re: Type II variation for WonderDrug 50 mg film-coated tablets — addition of nausea to SmPC section 4.8 and package leaflet section 4

Dear Sir or Madam,

Following the evaluation of a signal of nausea, SynthPharma AG submits a Type II variation to add nausea as an undesirable effect. The proposed product information is provided as FHIR ePI, both annotated (changes against the approved text) and clean.

Yours faithfully,

Dr. John Doe, Head of Regulatory Affairs, SynthPharma AG
